British Journal of Orthodontics

Volume 13 (1986)

Subject Index

Aetiology
The — of malocclusion (Proffit) 1
Announcements 59, 124, 185, 254
Andresen Appliance
A long-term follow-up of four cases treated with the — (Hale, Tongue) 195

Bimaxillary protrusion
The treatment of — (Keating) 209
Book Reviews 60, 124, 177, 251
British Orthodontic Standards
— Working Party, 2nd report 165

Case Report
Spontaneous regression of some mandibular radiolucencies: — (Aird, Barclay) 247
Case Report
— the treatment study group, (Brenchley) 237
Cephalometric Analysis
A low cost system for computer based — (Cohen, Linney) 105
Class II Division 1 Malocclusion
An analysis of complete and incomplete overbite in — (an analysis of overbite incompleteness) (Banks) 23
Class III Malocclusion
An unusual — (Banks) 113
Computer-based Analysis System
A low cost — for cephalometric analysis (Cohen, Linney) 105
Cranio-facial Anomalies
Roentgen Stereometry in the study of —: the state of the art in Sweden (Rune et al.) 151
Cranio-facial Profile
A preliminary — evaluation of normo-, micro- and macro-cephalics (Lavelle) 13

Desire for Orthodontic Treatment
An investigation into some of the factors influencing the — (Gosney) 87

Elastomeric Chains
Force reduction of orthodontic — after one month (Rock et al.) 147

Epidemiology
Overjet and overbite distribution and correlation: a comparative — English, Iraqi study (Kinaan) 79
Expansion
The effect of rapid maxillary — on nasal airway resistance (Timms) 221

Force Reduction
— of orthodontic elastomeric chains after one month in the mouth (Rock et al.) 147

General Dental Services
Orthodontics in the — (a review of its aims, methods and achievements) (Parker) 125

Height Records
The value of — (Hathorn) 119

Incisor Position
Lower — in treatment planning (Williams) 33
Indices of Malocclusion
Orthodontic screening of nine-year-old children (Crabb, Rock) 43

Letters to the Editor 61, 183
Lip
Recurrent swelling of the upper —: a case report (Howat, Rout) 49
Long Term Results
— of treatment: the best laid schemes (Leech) 63
Long Term Survey
Child dental care and serial extractions: — (Brouwer) 135

Malocclusion
On the aetiology of — (Proffit) 1
Malocclusion
Class II division 1, class II division 2, class III — the best laid schemes 63
Malocclusion
An unusual class III — (Banks) 113
Mandibular Radiolucencies
Spontaneous regression of some —: case report (Aird, Barclay) 247

Maxillo-facial Surgery
The use of an acrylic model to assess treatment progress prior to — (Coupland) 109

National Health Service
Orthodontics in the general dental service (a review of its aims, methods and achievements) (Parker) 125
Nasal Airway Resistance
The effect of rapid maxillary expansion on — (Timms) 221

Occlusal Changes
— from primary to permanent dentitions (Foster, Grundy) 187
Oral Health
Aspects of — in orthodontic patients 95
Orthodontic Screening
— of nine-year-old children (Crabb, Rock) 43
Orthodontic standards
British — working party; 2nd report 165
Overbite
An analysis of complete and incomplete — in class II division 1 malocclusions (an analysis of incompleteness) (Banks) 23
Overjet and Overbite
— distribution and correlation; a comparative epidemiological English, Iraqi study (Kinaan) 79

Primary to Permanent Dentition
Occlusal changes from — (Foster, Grundy) 187

Research Reports 53
Records
The value of height — in orthodontics; a case report (Hathorn) 119
Report
British Orthodontic standards working party: 2nd — 165
Reports of Meetings 57, 175, 253
Retainer
The bonded mandibular lingual — (Adenwalla, Attarzadeh) 159
Roentgen Stereometry
— in the study of cranio-facial anomalies: the state of the art in Sweden (Rune et al.) 151

Serial Extractions
Child dental care and — a long term survey (Brouwer) 135
Spontaneous Regression
— of some mandibular radiolucencies (Aird, Barclay) 247
Spontaneous Changes of Occlusion
— from primary to permanent dentitions (Foster, Grundy) 187
Stability of treatment
The best laid schemes (Leech) 63
Standards
British orthodontic — working party: 2nd report 165
Swelling
Recurrent — of the upper lip: a case report (Howat, Rout) 49

Treatment
The — of bimaxillary protrusion (Keating) 209
Treatment
A long-term follow-up of four cases: — with the Andresen appliance (Hale, Tonge) 195
Treatment Planning
Lower incisor position in — (Williams) 33
Treatment
Practical and theoretical aspects of a method of orthodontic traction to unerupted teeth illustrated by three cases (Oliver, Hardy) 229
Treatment Progress
The use of an acrylic model to assess — prior to maxillo-facial surgery (Coupland) 109
Treatment Study Group
— a case report 237

Unerupted Teeth
Practical and theoretical aspects of a method of orthodontic traction to — illustrated by three cases (Oliver, Hardy) 229

Working Party
British orthodontic standards — 2nd report 165
